

# Snow Day Star

*A gratis counted blackwork design  
From Practical Blackwork and Phoenix Flair Press*

**“Snow Day Star”** is an original design for counted blackwork, inspired by the *Lefkaritika* or Lefkara lace traditional to the isle of Cyprus. This pattern can be used to make Christmas ornaments (perhaps diamond-shaped, with a matching tassel?), as a single motif on linens, repeated as a border on linens or curtains, or whatever the stitcher imagines. The design can be “halved” or “quartered” (see photo at right) for narrower borders, etc. Choose a color that matches your holiday decor, add metal threads or beads - make it your own!

*Snow Day Star* is designed to be worked on evenweave fabric of your choice.

**STITCH COUNT - 37 x 37**

About 2.65” across at 14 stitches per inch.
